Make checks payable to I-55/I-57 Camp.

In its 12th year, the I-55/I-57 Summer Basketball Camps have gone through many changes and adjustments, and, has seen substantial growth as well. This summer's program will be no exception.

With the success of last year's individual camp, this year's camp will feature a limit of 50 total campers. While here campers will participate and compete against players in their own age groups.

FUNDAMENTAL & TEAM CONCEPTS

Fundamental knowledge of the game is needed for any player to be a successful team player. That knowledge should also be paired with fundamental skills in the sport as well. Campers will have plenty of opportunity to demonstrate fundamentals and ability to work in team situations.

Campers should expect to work hard and demonstrate a proper attitude and skills, as well as developing and refining skills needed to be successful in Basketball.

CAMP AWARDS

Campers that demonstrate exceptional skills and attitudes will be recognized for their performances at our camp's closing ceremonies. Individual competitions will also be held throughout the week to give players the ability to gauge their skills against their peers. Individual awards are also presented.
